Closed Weekends are designed to help us create our integrated life of living and learning together. On a closed weekend, we expect students to stay in the dorm on both Friday and Saturday nights and use their free time on Saturday evening and Sunday to explore New York City with their CITYterm friends. On a typical **Open Weekend**, students are allowed – assuming they have parental and faculty permission – to leave CITYterm after our Saturday afternoon programming and return to the dorm by dinner on Sunday.

Please note that CITYterm is a six day per week program. Therefore, **Saturday Classes and Expeditions** in the city are a **mandatory** part of the curriculum. Weekends begin after class on Saturday at 4:00pm. In order to preserve as many class days as possible, CITYterm asks that parents do not schedule travel that interferes with the class schedule. We ask that students register for the **SAT** at **The Masters School** (test center 33360) or **Dobbs Ferry High School** (test center 33358) for the **November 3** test date only. We also ask that students register for the **ACT** at **Sleepy Hollow High School** (test center 334220) for the **October 27** test date only.
